	APPROVAL OF STATE ENGINEER		
liminamount right place reason two must insta accur meter Compl State use of public holde (CONT The exception)	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following tations and conditions: This permit is issued subject to existing rights. It is understood that the it of water herein granted is only a temporary allowance and that the final water obtained under this permit will be dependent upon the amount of water actually do to beneficial use. It is also understood that this right must allow for a mable lowering of the static water level. This well shall be equipped with a (2) inch opening for measuring depth to water. If the well is flowing, a valve be installed and maintained to prevent waste. A totalizing meter must be alled and maintained in the discharge pipeline near the point of diversion and rate measurements must be kept of water place to beneficial use. The totalizing must be installed before any use of water begins, or before the Proof of etion of Work is filed. This source is located within an area designated by the final final file is the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on c, private or corporate lands. The issuance of this permit does not waive the requirements that the permit obtain other permits from State, Federal and local agencies. INUED ON PAGE 2) amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second , but not to exceed 177.92 million gallons annually.		
Wor	k must be prosecuted with reasonable diligence and be completed on or before March 29, 1991		
	of of completion of work shall be filed on or before		
	lication of water to beneficial use shall be made on or before March 29, 1994		
	of of the application of water to beneficial use shall be filed on or before		
	in support of proof of beneficial use shall be filed on or before		
	pletion of work filed APR 2 6 1991 IN TESTIMONY WHEREOF, I PETER G. MORROS		
	State Engineer of Nevada, have hereunto set my hand and the seal of my f of beneficial use filed		
Cultu	office, this 8th day of December,

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 shall not exceed 177.92 million gallons annually.

The permittee shall submit a monitoring plan to show any impact resulting from an increase in groundwater pumping. Upon approval by the State Engineer of such a plan, data will be submitted to the State Engineer on a monthly basis.

Upon further groundwater development a report shall be submitted to the State Engineer to identify the amount of water recharged through the proposed rapid infiltration basins into the groundwater system. Upon review of that data by the State Engineer, the amount of water credited by the recharge program will be determined. The maximum amount to be credited will not exceed 90 percent of the amount recharged.

The total annual withdrawal of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 is initially limited to 177.92 million gallons annually. The total annual withdrawal of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 may be raised in stages up to a maximum of 177.92 million gallons annually in addition to the amount credited for recharge, as approved and authorized by the State Engineer, only after the State Engineer has determined the amount to be credited by the recharge program.

The State Engineer does not waive any authority to require the permittee to comply with the provisions of NRS 534.010 and 534.250 through 534.340, inclusive.
